      i. If you have a question about any of your workshops, programs, events, or activities ‘counting’ for credit – email cfsl@oregonstate.edu and you’ll get a response in 48 hours.
   b. Appropriate behavior when attending programs or program will not count.

         1. If the program is hosted in your home, you need to provide presenters with access to WIFI, AV, water, etc.
      ii. No members should be on phones or laptops during a program when you have a guest speaker.
      iii. Members need to provide speakers with their full attention in order to receive credit for the programs. Programs should not be hosted over meals or in another setting not conducive to a workshop where learning and engagement should occur.

7. Why is the report important?
   a. Because it allows your chapter to receive recognition in the areas where you excel.
   b. It helps your chapter understand minimum expectations, best practices and community benchmarks.
   c. It is how your chapter maintains recognition from the Center for Fraternity & Sorority Life.

8. Is the Report required to complete?
   a. Yes – it’s required in order to remain a recognized fraternity/sorority at OSU. This is also a great record of what your chapter accomplished in the past year. This report is also shared with your inter/national organization.

9. What happens if my chapter hasn’t completed some of the criteria by the end of the calendar year?
   a. The goal is that your chapter completes 100% of the criteria. At the close of the evaluation period, each chapter (and their advisor and inter/national organization) will receive a status letter with the results of their submitted Report. If criteria weren’t completed, there may be the opportunity to remedy the incomplete items in the coming calendar year and this will be outlined in the letter. Some criteria not being completed could result in the loss of privileges afforded to student organizations (not in good standing with the CFSL, lack of access to on-campus and resources reservations, not able to participate in community/council programs, etc.).

10. Why is this a calendar year report versus an academic year report?
    a. Most of the chapters at OSU elect their officers based on a calendar year so it aligns with most of the chapter officer terms. This reporting timeframe also aligns with most inter/national organizations accreditation and awards programs.
    b. The calendar year timeframe allows the criteria you submit to be evaluated and scored in winter term, and your chapter will be eligible to be considered for Greek Awards in spring term.
