Make-Up Hazing Workshop

Intended for chapters who did not meet the 80% of membership attendance requirement at End Hazing Now Keynote or for the Hazing Workshop scheduled for their chapter and still have less than 10-20 members to complete the requirement. Not intended for chapters that still need 80% of their members to complete the requirement.

Instructions:
1. Identify a member of the chapter’s current executive board (for fall 2019) to lead the workshop. This will include watching the full video with members and guiding them through discussion.
   a. To prepare the officer to lead this session, have them read this article.
2. Watch this video – “Love, Mom & Dad” where Jim & Evelyn Piazza share their story as they work to help the Greek community prevent further tragedy.
3. After the video, the officer will engage the group in a discussion with the following questions:
   a. What was this experience like for you?
   b. Most people agree, the abuse of power is weakness, not strength. What types of individual dominance over new/younger members do you think are not cool? How can our chapter benefit by resisting the urge to abuse or misuse power?
   c. Think Moral Responsibility, not just Legal. In addition to feeling a responsibility toward our chapter…what is our moral responsibility towards younger/new members? Where/how do we develop moral responsibility?
   d. How can our chapter better communicate that hazing isn’t tolerated? What are some current chapter behaviors or activities that we need to re-evaluated? How can we reevaluate these as a group? What can we add to our chapter activities to lessen/prevent these behaviors?
   e. It’s an expectation that if we see something, we need to say something. What should we do if we see other chapters engaging in activity that could be hazing? How can we help keep all members of the community safe?
   f. Review OSU’s hazing prevention policies and resources:
      i. What is Hazing: Any activity expected of someone joining or participant in a group that humiliates, degrades, abuses, or endangers them regardless of a person willingness to participate.
      ii. Resources:
         2. Survivor Advocacy Resource Center (SARC) 737-2030, Text @SARC to 392-42 for info about SARC
         3. Counseling & Psychological Services (CAPS) 737-2731, A confidential resource at OSU. They provide individual, couple, and group counseling for OSU students.
         4. Student Conduct & Community Standards (SCCS) 737-3656, Online anonymous and formal reporting options. https://Studentlife.oregonstate.edu/studentconduct
   g. Conclude program, take photo, and have all individuals sign in.

Submission to the CFSL to confirm credit:
- Email CFSL@oregonstate.edu the below information when the workshop is completed:
  o Chapter
  o Name and position of the Fall 2019 Executive Board officer that led the workshop.
  o Date of the workshop and location where it was held.
  o A photo of the group gathered, watching the video and engaging in discussion.
  o List of members who attended the program.
  o A written synopsis of the member question/answer time and the primary takeaways (at least 250 words).
